### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### *Drawings*

2. It appears to the examiner that figures 4A, 4B, 4C, 12 and 13 disclose prior art. If so, then these figures should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

3. The disclosure is objected to because of the following informalities. Appropriate correction is required.

Page 33, lines 19-20: "rushe ¶ s" should be --rushes--.

Page 34, line 10: "he" should be --the--.

Page 38, Table 1: "NG" is not a commonly known abbreviation and should be spelled out or deleted.

***Claim Objections***

4. Claims 1-20 are objected to because of the following informalities:

Claim 1, lines 8-9 and claim 11, lines 7-8: For each of these claims "into between" is grammatically incorrect.

***Allowable Subject Matter***

5. Claims 1 and 11 would be allowable if rewritten to overcome the claim objections set forth in this Office Action.

6. Claims 2-10 and 12-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.

7. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

#### *Reasons for Allowance*

8. The following is an examiner's statement of reasons for allowance of claims 1-20.

For independent claims 1 and 11, the prior art of record does not disclose or clearly suggest a heating apparatus comprising controlling means controlling electric power supply to said heating member on the basis of a result of detection by said first temperature detecting means; and judging means for judging on the basis of a result of detection by said second temperature detecting means whether electrical energization of said heating member should be effected before the start of movement driving of said moving member in combination with the remaining limitations of the claims.

Claims 2-10 and 12-20 are allowed due to their dependency on allowed claims 1 and 11, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

9. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure. The prior art cited in PTO-892 and not mentioned above disclose related heating apparatuses.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. Alexander Smith whose telephone number is 571-272-2251. The examiner can normally be reached on Monday through Friday from 9:30-6:00.
